

BHS Opens New Store in the Capital

Tuesday 27th August 2013 – Camilleri Group is proud to announce the opening of the new BHS store set in a prime location on Republic Street Valletta, opposite the National Archaeological Museum. Set on four floors including ground floor, the store offers women's, children and men's fashion clothing and accessories and now also has a home section. The décor of the building is a fusion of contemporary features blending with the old original features of the traditional building.

"We're excited to make Republic Street our newest home in Valletta, with a state-of-the-art store which will be replacing the previous outlet in Merchant Street," said Mr. Charles Camilleri, Camilleri Group's CEO. "We look forward to continue providing customers a fabulous shopping experience with good quality clothing and home accessories at affordable prices."

This is the third BHS store in Malta with outlets currently available in Valletta, Sliema and B'Kara with another BHS store planned to open in Fgura in 2014. In addition, Camilleri Group have also set their horizons further afield with two BHS stores recently opened in Tripoli and one in Benghazi, Libya.

Guests at the official opening were invited to a store show round as well as a fashion show organised by Carina Camilleri of models.com.mt. Refreshments were served by Camilleri Catering with great tunes courtesy of Ziggy.
